June 1, 1905-Opening Lewis and Clark exposition.

Deafness Cannot Be Cured

Deafness Cannot Be Cured
by local applications, as they cannot reach
the diseased portion of the ear. There is
only one way to cure deafness, and that
is by constitutional remedies. Deafness
is caused by an inflamed condition of the
mucous lining of the Bustachian Tube.
When this tube is inflamed you have a
rumbling sound or imperfect hearing, and
when it is entirely closed, deafness is the
result, and unless the inflammation can be
taken out and this tube restored to its
normal condition, hearing will be deafroyed forever; nine cases out of ten are caused
by catarrh, which is nothing but an inflamed condition of the mucous surfaces.
We will give One Hundred Dollars for
any case of deafness (caused by catarrh)
that cannot be cared by Hall's Catarrh
Cure. Sand for circulars free.
